

CSY PROPERTY COMPANY LTD.

Client's Needs First

NANCY CHAN envisioned an efficient one-stop for clients with commercial property needs.

As Hong Kong's properties grow more complicated, CSY Property Limited gives potential clients a hand in the precarious game of real estate. Founded in 2011, the company provides professional property leasing and sales consulting services in all major fields of inquiry, including industrial, commercial, retail, car parks, and land.

One-Stop Property Services

"A successful property agency service can no longer stop at merely providing property information, but must exhaust all efforts in offering one-stop, bespoke solutions for any client on a timely basis," says Chan, Director of CSY Property. "It requires a huge and constantly updated property database, and well-experienced property professionals. This is why clients choose CSY."

"CSY aims to not only be a mere property consultant, but a strategic partner for clients. We have a seasoned team, consisting of mature well-experienced property professionals, most of which have working experience with international firms and can think on their feet. We can provide tailor-made solutions for offices, retail shops and warehouses for lease or purchase. Clients do not necessarily have to communicate with different agents for different concerns."

People of Interest

"In CSY, our people are our most valuable asset. Our company has built up a harmonious working environment, and

everyone is teamwork driven. In terms of staff, CSY enjoys a very low turnover rate," says Chan.

"We sincerely invite those who are interested in real estate consultant services or who even want to consider taking this up as their lifetime business to join our company. CSY offers unique career opportunities."

"Our motto is 'To Create Win-Win'. This means that the winning position we give our clients constitutes the wins of our property professionals and the company as a whole. Conversely, satisfied property professionals provide clients satisfying services. Overall happiness is the goal for our company, and judging by our team's performance, it seems we are in line with our mission statement."

CSY head office is located in Hong Kong Island. In 2014, it launched its branch in Kwai Chung. CSY opens two more branches in 2015, one in Tsuen Wan and one in Kowloon East.
